PAICE

Paice is a leading provider of office services in London and the South East.

Our business is built on four simple principles. Quality, Value, Service and Reliability. We are committed to continued excellence, providing a high quality personal and flexible service, with a single point of contact and a rapid team response.

With significant experience and longevity within the industry, as well as having long standing relationships with all major brands and suppliers, we provide our clients with guidance, support, procurement and feedback, working collaboratively as partners to ensure real cost savings for your company.

We were originally formed by Robert Paice in 1960 based at Craven Hill London, and are still one hundred percent owned by the Paice family. Although much has changed since then, the same strong values set out by Robert Paice still continue.

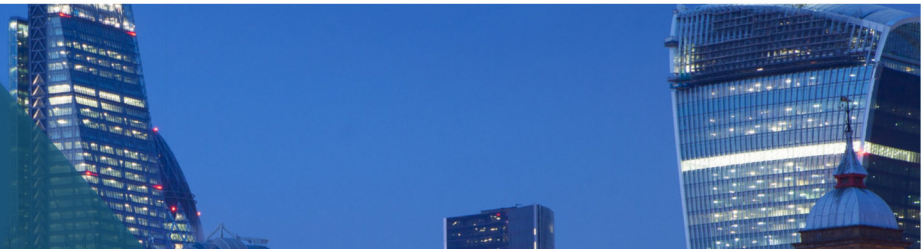

When you use any of our services, you will find that all our management team are directly accessible, that includes the directors.

Even though we have a well established customer base, we want you to feel that you are our only customer. We are good listeners, and take on board what you say.

We treat customers like people, not an account reference number.
